

100%  
ORGANIC!

# PrimeraOne<sup>®</sup>

## Organic Fertilizer

*With trace minerals & beneficial soil microbes*

**Non-Burning • Non-Polluting • Non-Toxic**

- ✓ Non-soluble – Stays in place
- ✓ Adds more than 70 trace minerals to soil
- ✓ Naturally slow-release
- ✓ Improves soil structure

"I've used many organic fertilizers over the past 30 years growing turf and landscapes. The new PrimeraTurf fertilizers are great – they're user-friendly and the results are consistent and very predictable."

– John Chapman, Gulf Coast Organics and Craft Turf Farms, Foley, AL

"MightyGrow doesn't leach, and that's the key – it stays in place. I was really surprised. We had a very wet winter here, and I was shocked to see my soil levels. I was expecting there to be nothing in the soil after that kind of rain."

– Rick Peterfeso, Superintendent, Laurel Country Club, 2013
